PIRAMAL FINANCE · INVESTOR & ANALYST DAY 2026

Lekhak for investors

The attendee journey, step by step: from the QR at the entrance to the notes you take home.

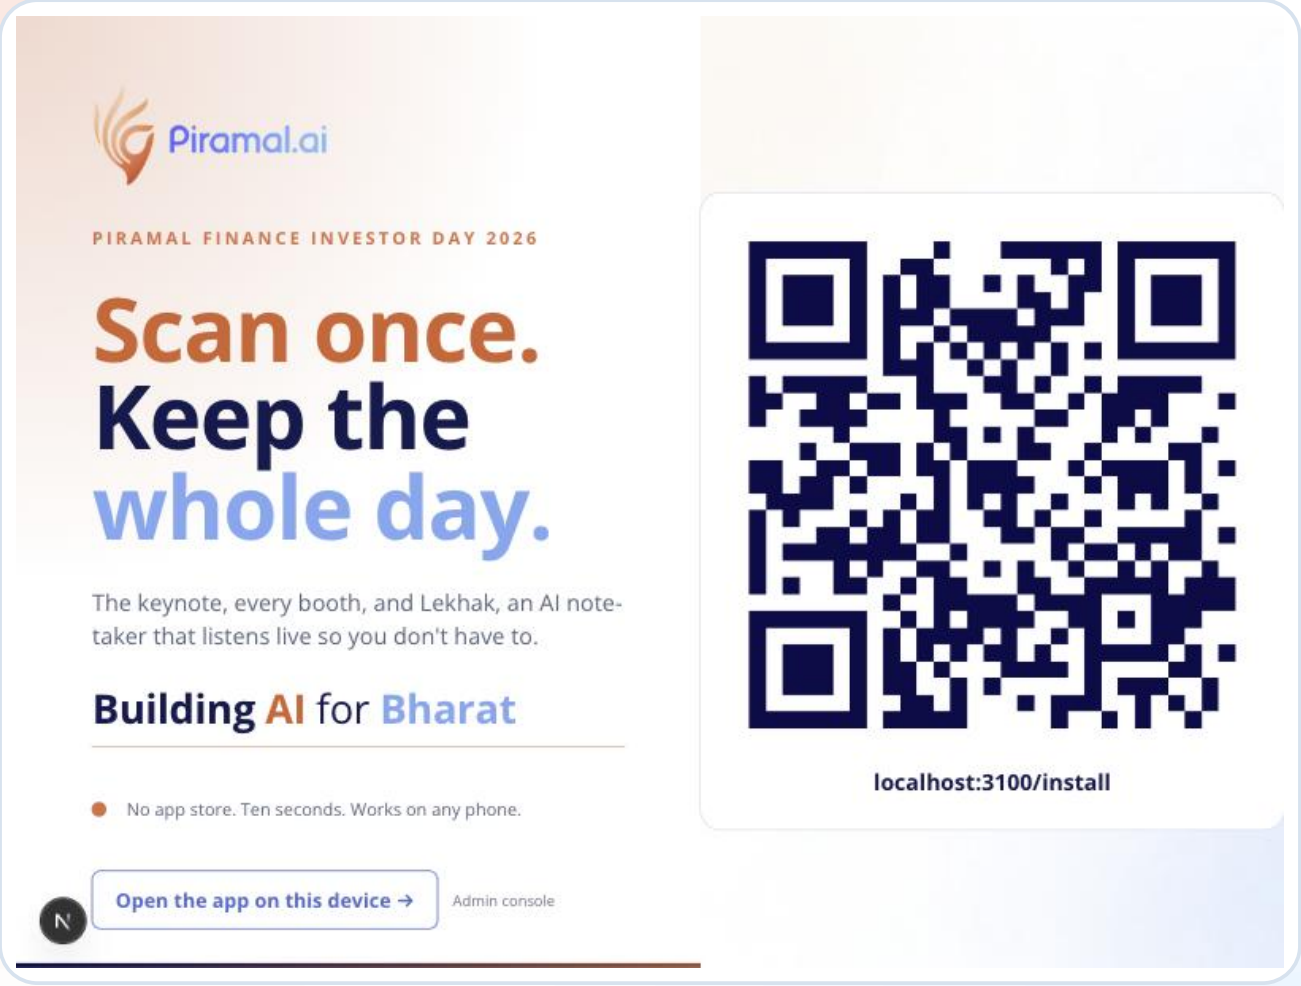

THE JOURNEY

1. Scan once. Keep the whole day.
2. Add Lekhak to the home screen
3. Your pass is already waiting
4. Scan the QR printed on the pass
5. Today's agenda, with what is live
6. The live transcript, word by word
7. Ask anything, in any language
8. Scan the last slide to keep the booth
9. The booth is yours
10. About, deck and transcript in one place
11. The slides, as presented
12. Your notes, written for you
13. Lekhak's three lines and the numbers that stuck
14. Per-session notes with key moments

1

AT THE ENTRANCE

Scan once. Keep the whole day.

WHAT HAPPENS

A screen at the venue entrance shows one QR code. Scanning it opens Lekhak in the phone browser, no app store needed, in under ten seconds.

WHAT TO DO

- Point the phone camera at the QR on the entrance screen.
- Tap the link that appears.

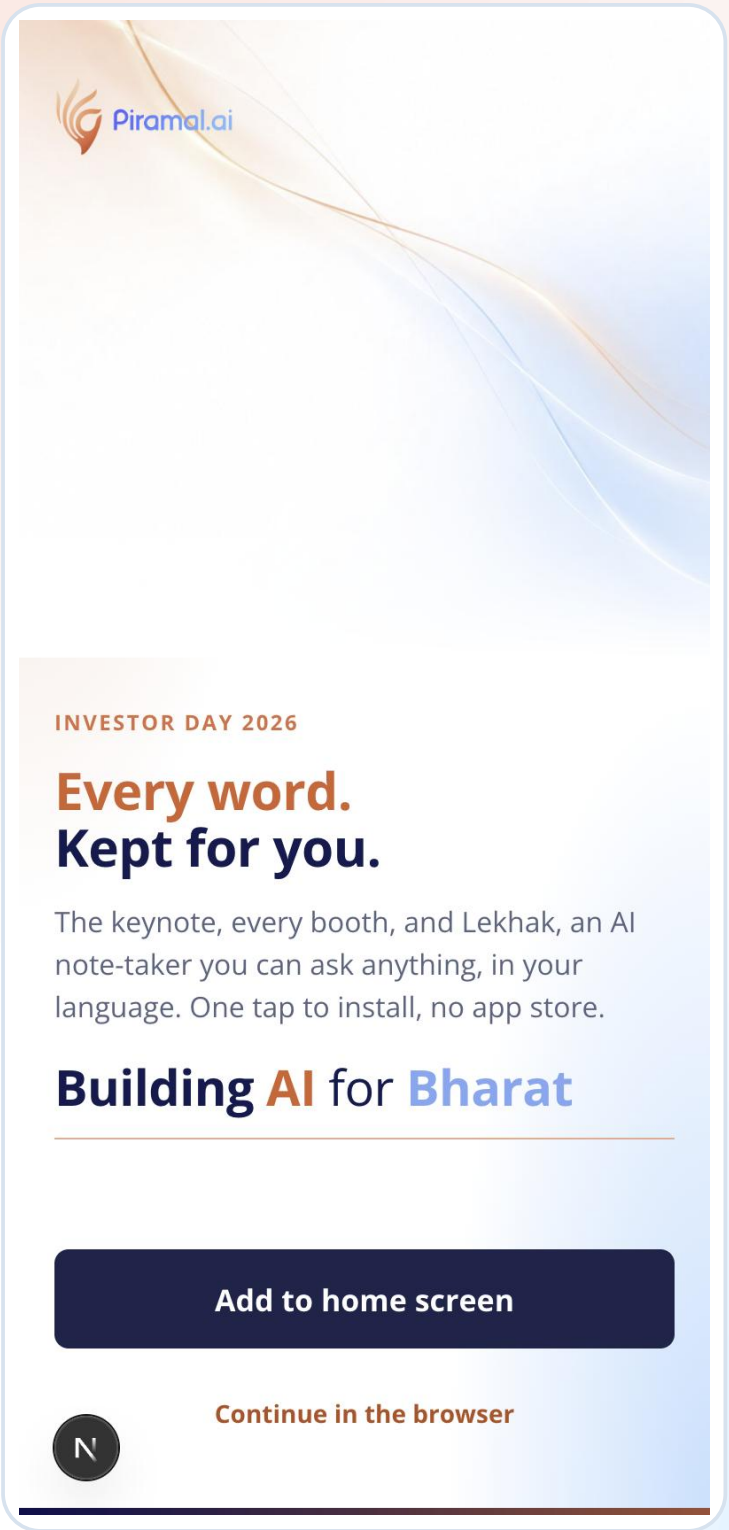

> Works on iPhone and Android. The same page is printed on the invitation.

Piramal.ai

2

FIRST OPEN

Add Lekhak to the home screen

WHAT HAPPENS

The welcome screen explains what Lekhak does and offers to install it as an app. Installing is optional; everything works in the browser too.

WHAT TO DO

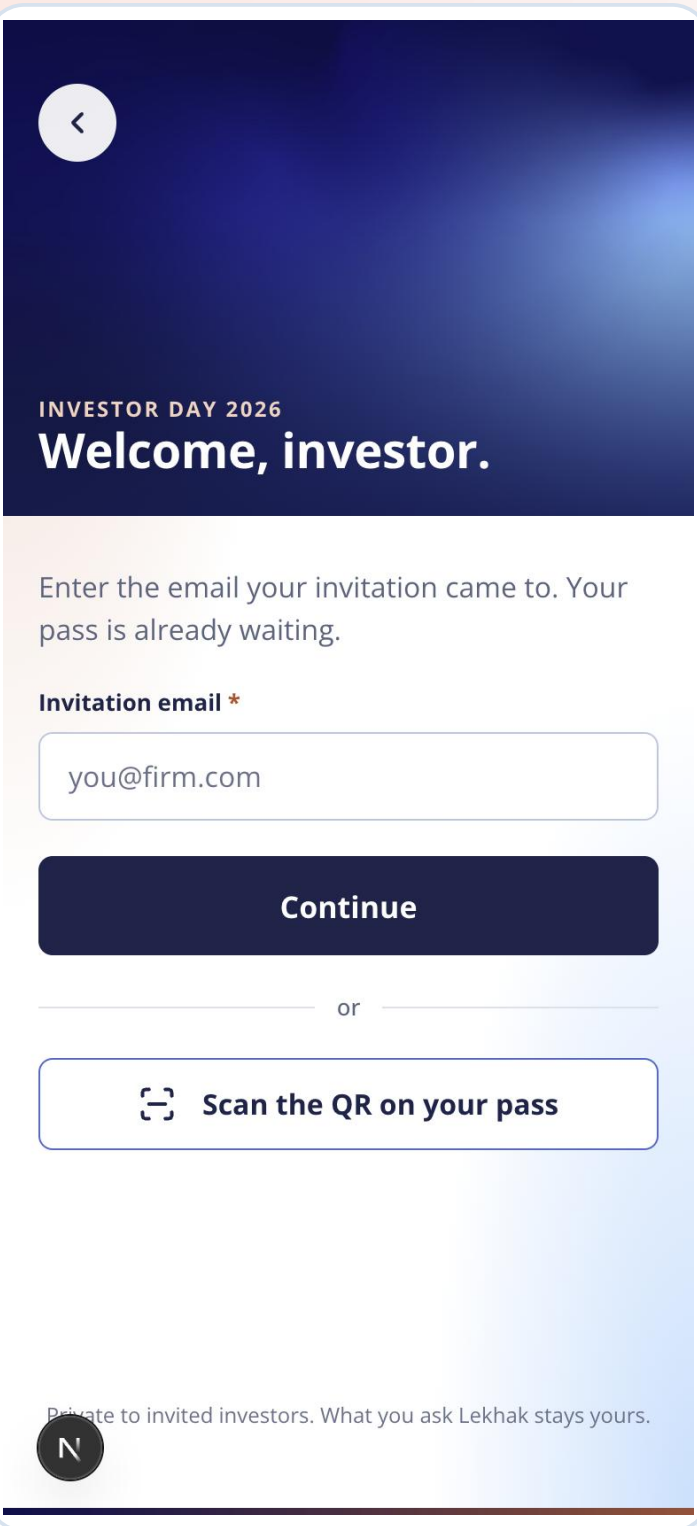

- Tap "Add to home screen" and confirm, or
- Tap "Continue in the browser".

Piramal.ai

3

SIGN IN

Your pass is already waiting

WHAT HAPPENS

Every invited investor is pre-registered. Signing in needs only the email the invitation was sent to; there is no password and no OTP.

WHAT TO DO

- Type the invitation email and tap Continue.
- Or tap "Scan the QR on your pass" for a one-tap sign-in.

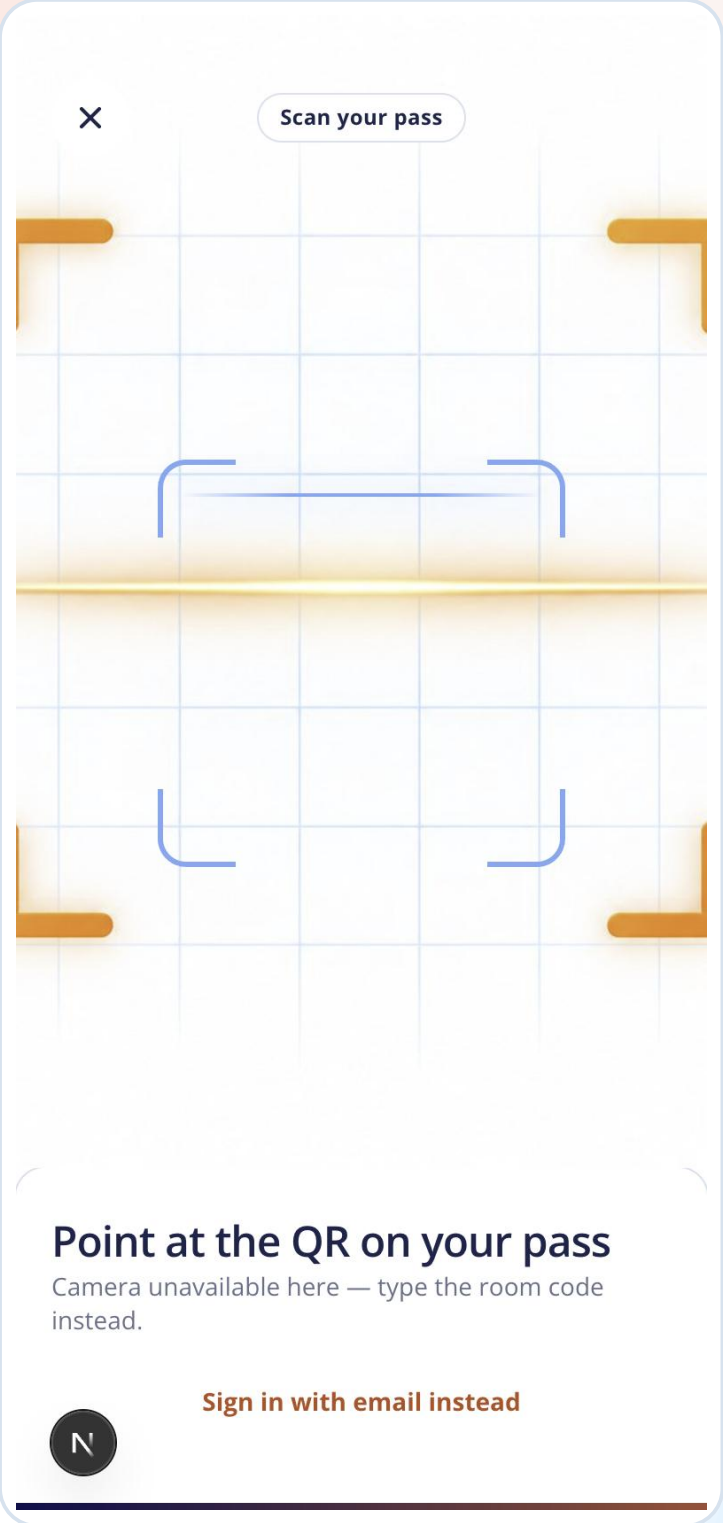

If the email is not recognised, the registration desk can add it in seconds.

Piramal.ai

4

SIGN IN BY PASS

Scan the QR printed on the pass

WHAT HAPPENS

Each printed pass carries a personal QR. Scanning it signs the attendee in directly and lands them on the home screen.

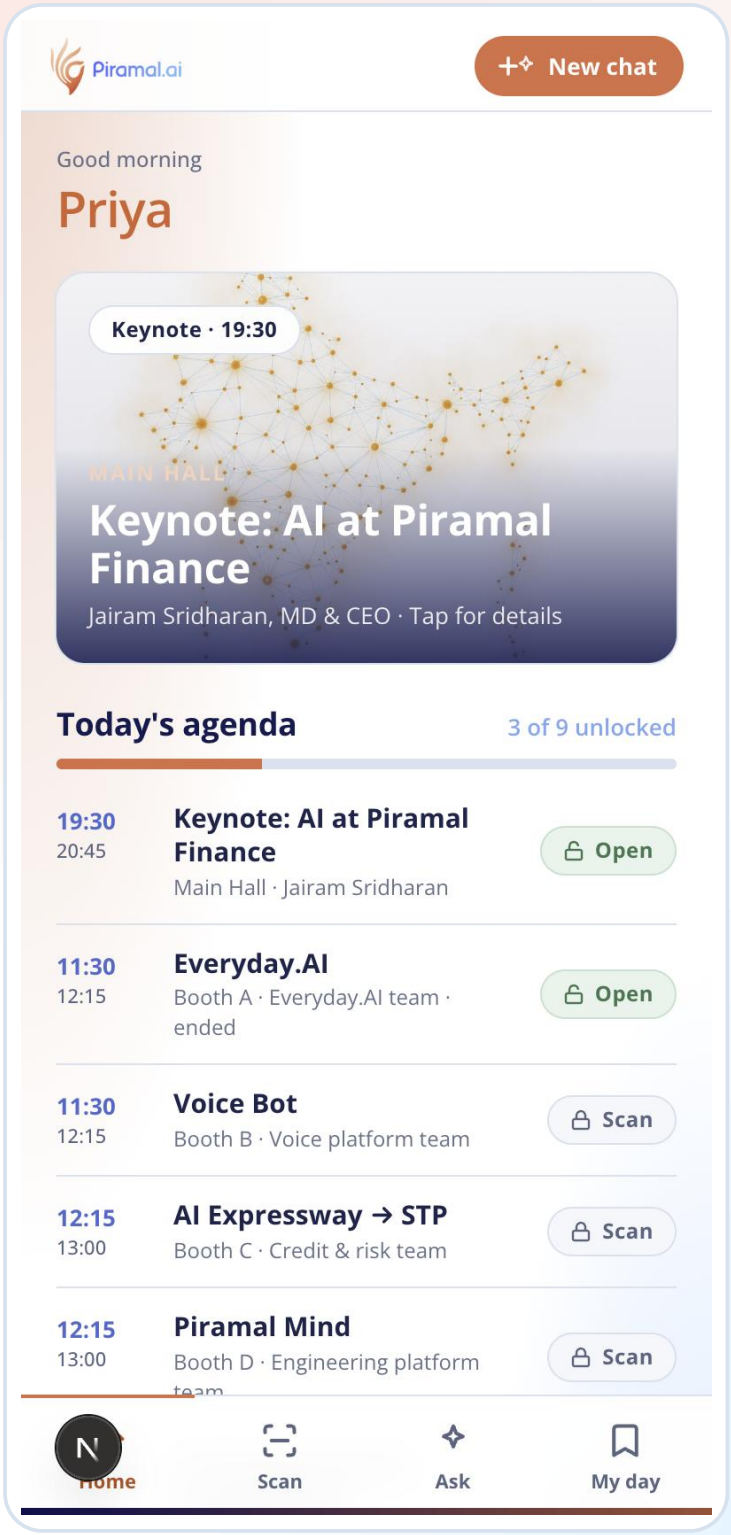

WHAT TO DO

- Hold the pass in front of the camera frame.
- The app recognises it and signs you in automatically.

5

HOME

Today's agenda, with what is live

WHAT HAPPENS

Home shows a personal greeting, the keynote or whatever is live right now, and the full agenda. Sessions marked Open can be asked about; sessions marked Scan unlock when you attend them.

WHAT TO DO

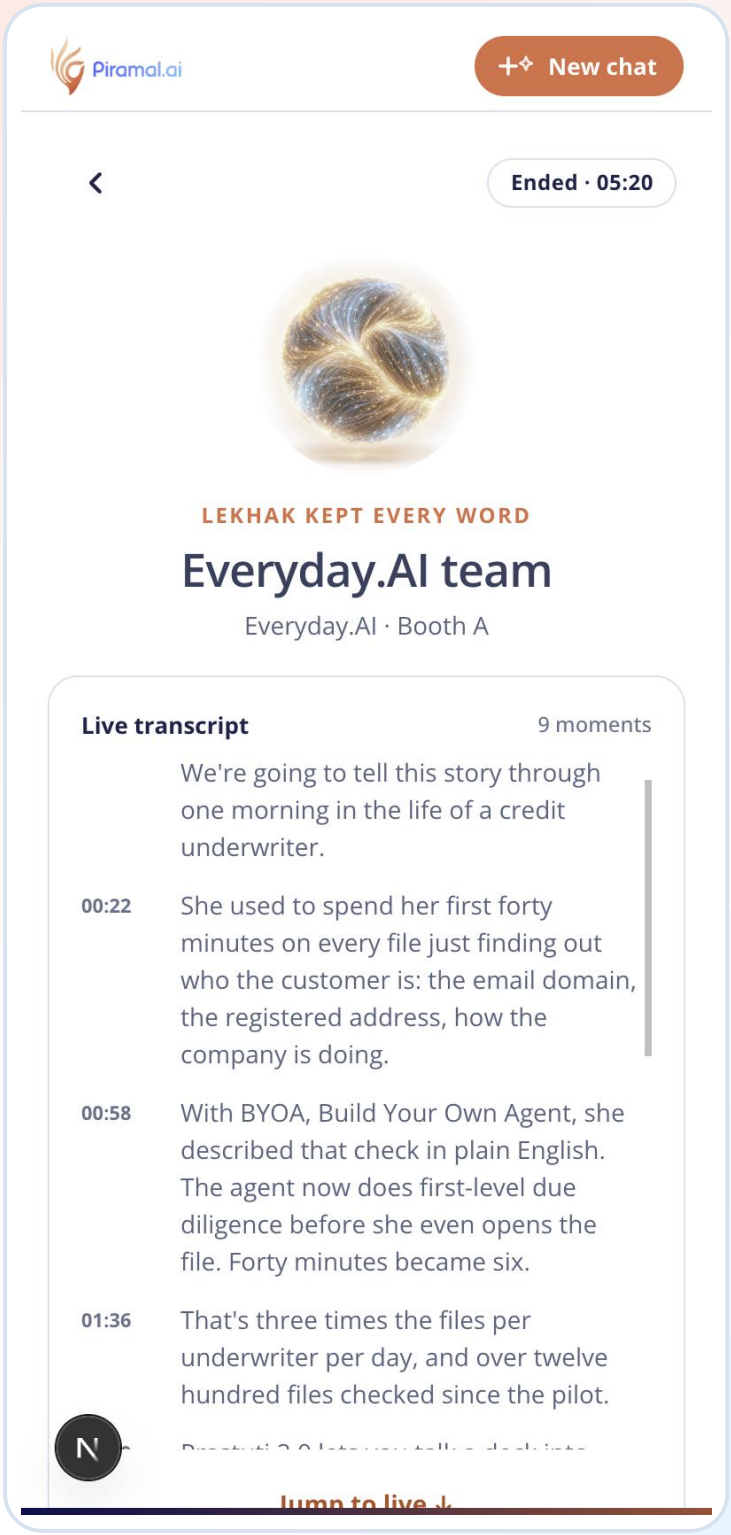

- Tap the big card to join the live session.
- Tap any agenda row for its details and deck.

> The agenda updates by itself within a few seconds whenever the host changes it.

6

DURING A TALK

The live transcript, word by word

WHAT HAPPENS

While a speaker talks, Lekhak transcribes in real time and every phone in the room receives the words within a second. Each finished sentence is kept with its timestamp. Being on this screen also records that you attended the session, which feeds your notes.

WHAT TO DO

- Read along; the transcript scrolls as the speaker talks.
- Tap "Ask about anything ... said" to question Lekhak about this talk.

> Works in English and Indian languages; the speaker can switch languages mid-sentence.

Piramal.ai

7

ASK LEKHAK

Ask anything, in any language

WHAT HAPPENS

Type or speak a question. Lekhak answers in the language you asked in, and keeps two things apart: what the speaker actually said on stage, with timestamp citations, and what the deck says, with slide citations. It never attributes a slide to the speaker.

WHAT TO DO

- Type a question, or hold the mic button and speak.
- Tap a timestamp chip to see the exact moment; tap a slide chip to open the deck.
- Tap "New chat" at the top to start a fresh conversation.

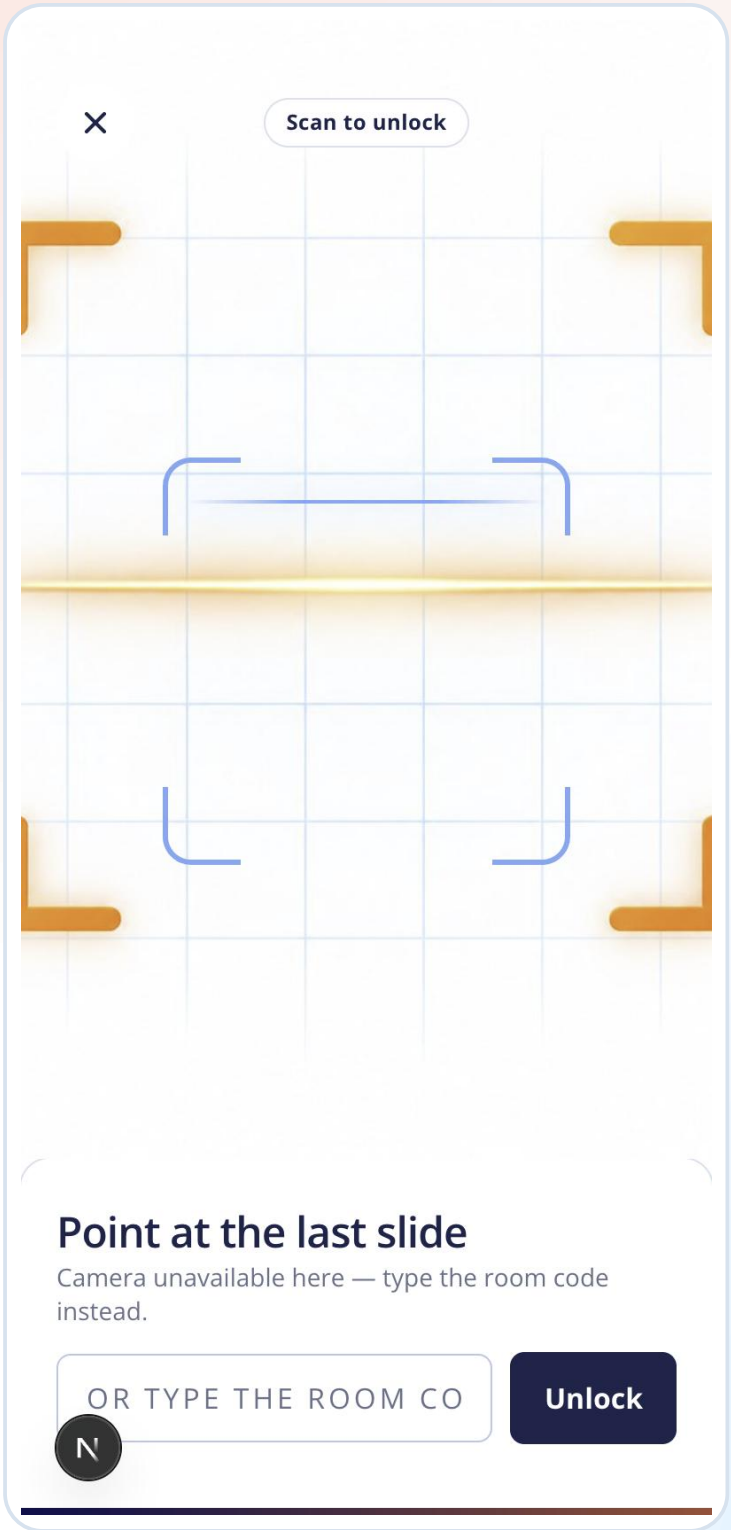

Try: "What did Jairam say in the last 2 minutes?" or "□□□ □□□ BYOT □□ □□□□ □□□ □□□□ □□□□ □□?"

8

AT A BOOTH

Scan the last slide to keep the booth

WHAT HAPPENS

Every booth ends on a QR slide. Scanning it unlocks that booth in the app: its deck, its transcript and Lekhak's notes. If the camera is unavailable, the room code printed on the slide does the same.

WHAT TO DO

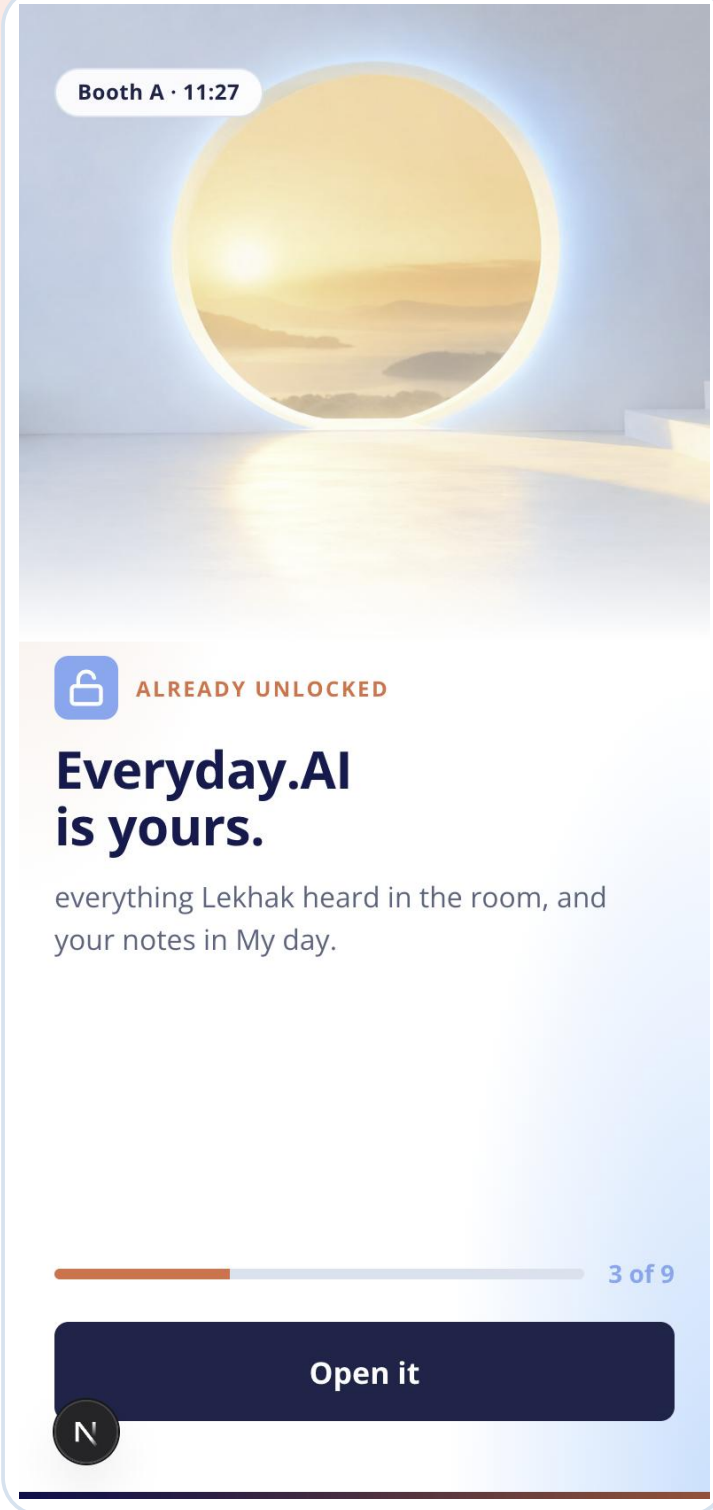

- Tap Scan in the bottom bar.
- Point at the QR on the booth's last slide, or type the room code and tap Unlock.

Piramal.ai

9

UNLOCKED

The booth is yours

WHAT HAPPENS

A confirmation shows the booth is now part of your day, with the running count of sessions unlocked. From here the deck, the transcript and the notes are available any time.

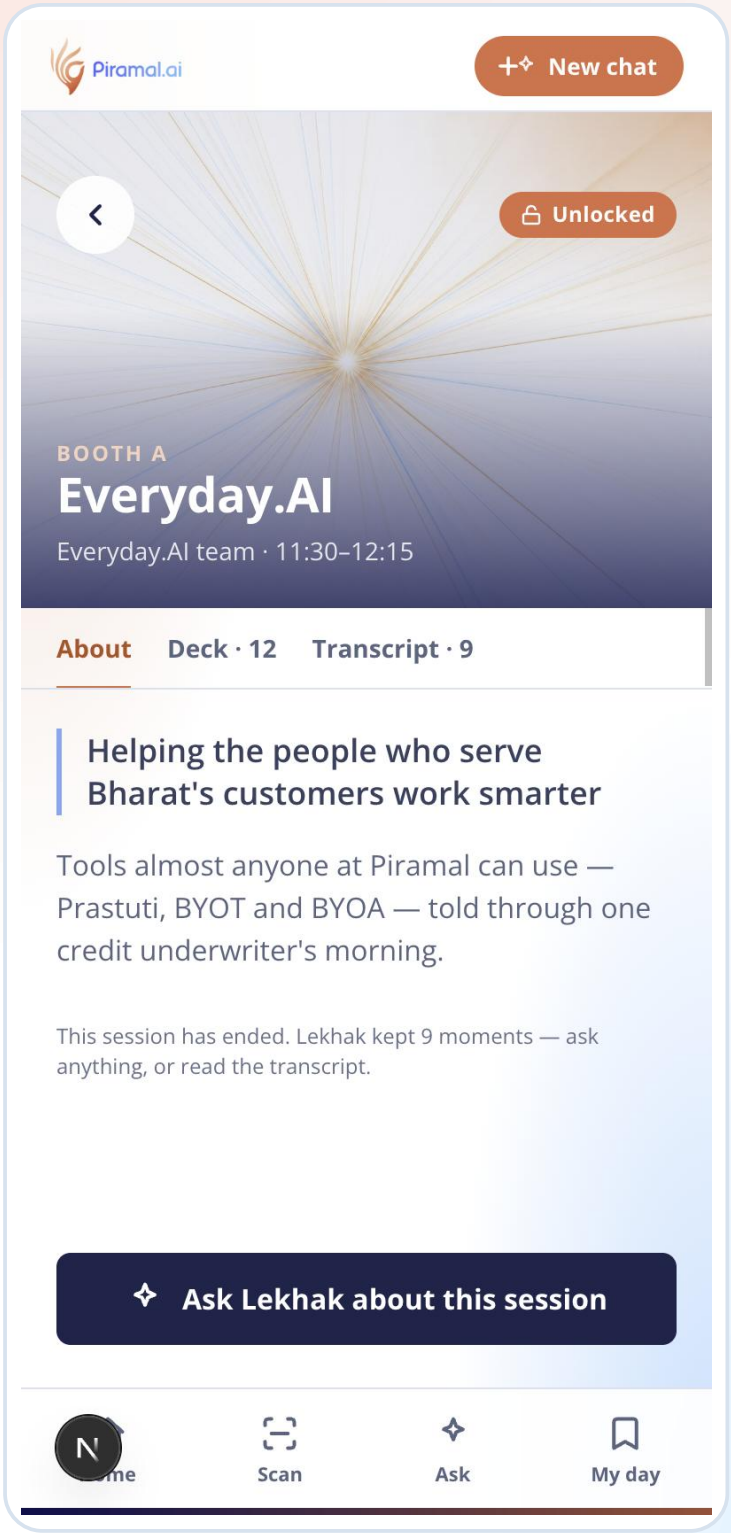

WHAT TO DO

- Tap "Open it" to go to the session page.

10

SESSION PAGE

About, deck and transcript in one place

WHAT HAPPENS

Each unlocked session has three tabs: About (what the session is), Deck (the slides as presented) and Transcript (every line with its timestamp).

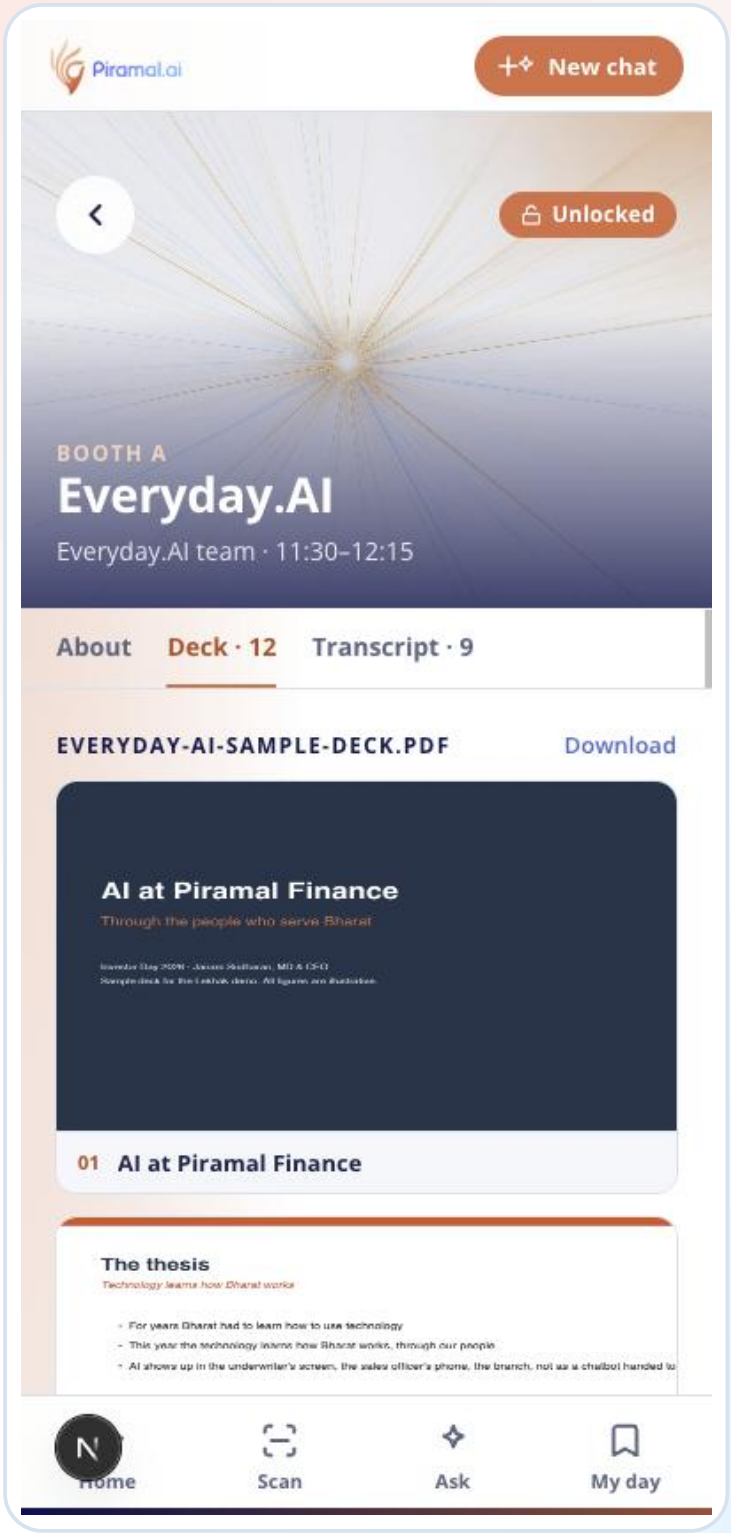

WHAT TO DO

- Switch tabs to read the summary, browse slides or scroll the transcript.
- Tap "Ask Lekhak about this session" for questions focused on this talk.

11

DECK

The slides, as presented

WHAT HAPPENS

The speaker's deck renders as the original slides, PDF or PowerPoint, with a caption per slide. Tap a slide to view it full-screen and step through with Previous and Next.

WHAT TO DO

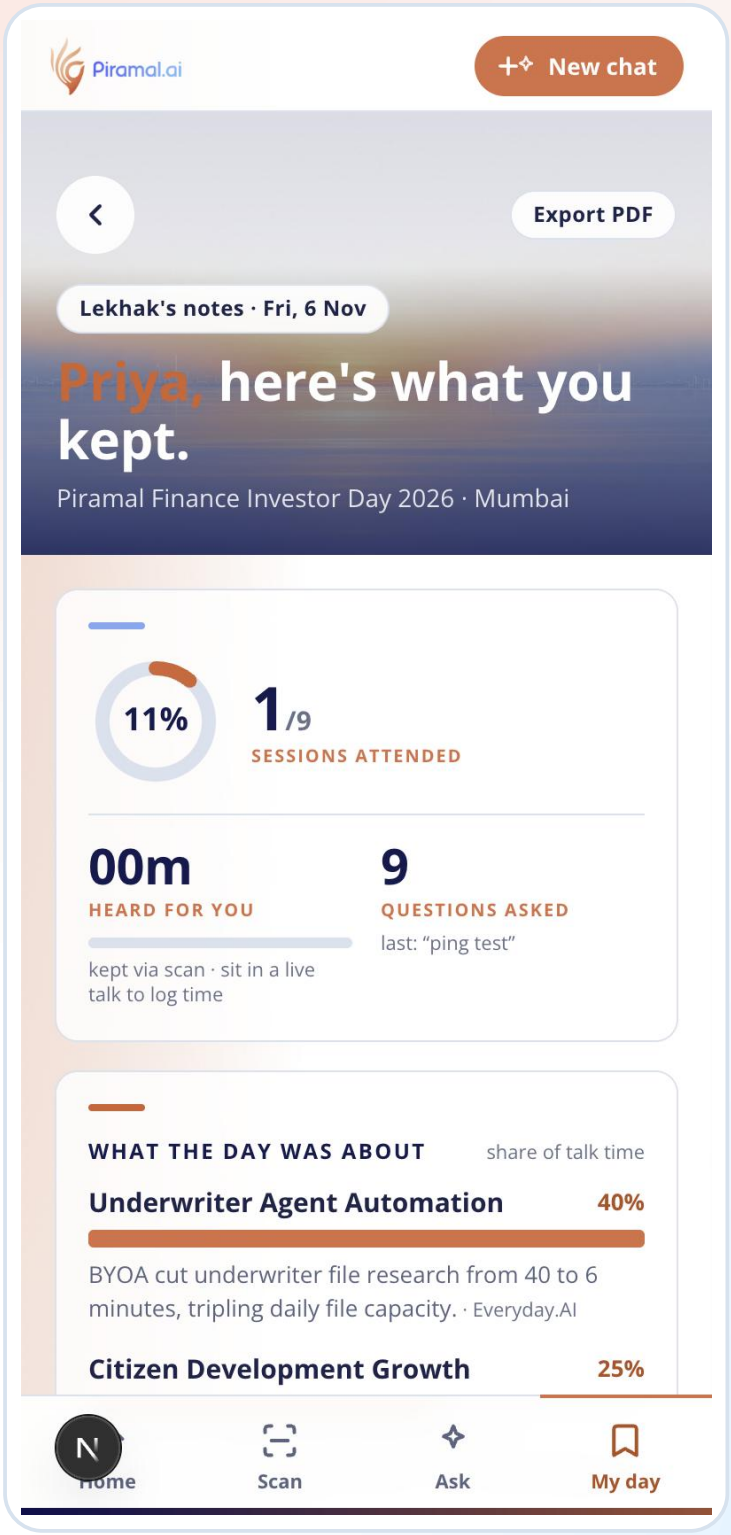

- Scroll the slides; tap one to enlarge.
- Tap Download to keep the file.

12

MY DAY

Your notes, written for you

WHAT HAPPENS

My day builds itself from the sessions you were in the room for and the booths you unlocked: how much you attended, what the day was about with the share of talk time per theme, and the figures that were spoken.

WHAT TO DO

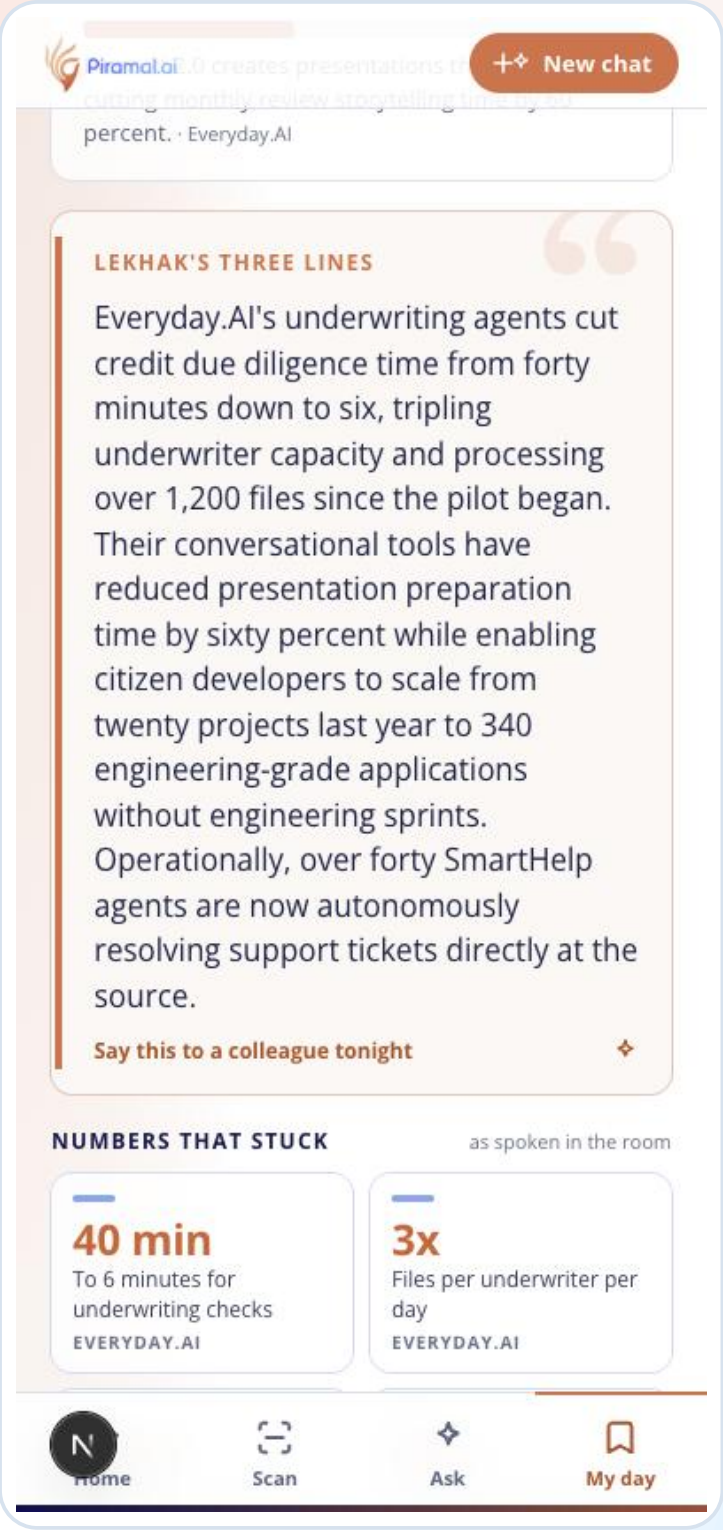

- Open My day from the bottom bar at any time; it keeps updating during the day.
- Tap "Export PDF" to take it home.

Piramal.ai

13

MY DAY

Lekhak's three lines and the numbers that stuc

WHAT HAPPENS

A three-sentence digest you can repeat to a colleague tonight, followed by the figures that were actually said in the room, each tied to its session.

WHAT TO DO

- Read the three lines before leaving the room.
- Scroll on for the per-session notes.

Piramal.ai

14

MY DAY

Per-session notes with key moments

WHAT HAPPENS

For every session: a headline, the key moments with the time they were said, the figures as chips, and the speaker's main claims marked "Slide N" when the deck backs them or "Not on the deck" when they were said only on stage.

WHAT TO DO

- Tap a session card to reopen it.
- Tap "Ask Lekhak" on a card to question that session directly.
